Lyxor Flexible Allocation Class B (GBP) (the "Fund")

ISIN: LU1009070381 - A sub-fund of the investment company named LYXOR INVESTMENT FUNDS (the "Company") domiciled in Luxembourg. Managed by Lyxor Asset Management S.A.S. ("LAM")

Objectives and investment policy

This Fund is an active UCITS. The Fund's investment objective is to provide a net capital appreciation (taking into account all fees and expenses attributable to the Fund) above EONIA (the "Benchmark Index") or the equivalent money market rate in the relevant currency of the Class of Shares, over a 3 to 5 year horizon with an annual volatility target level of 8%. The majority of the Fund's investments or exposure are not linked to the Benchmark Index. The Fund investment strategy may deviate significantly from the Benchmark Index. In order to hedge the currency risk, the Fund use a hedging strategy which attempts to minimize the impact of rate fluctuations of the Fund against the base currency of the Sub-Fund.

The Fund has an absolute return approach to generate a performance in most market environments.

It will invest in a diversified portfolio of very liquid instruments.

The share currency is the Sterling Pound (GBP).

- **Invested financial instruments:** Eligible assets, including but not limited to equities, bonds, exchange traded funds, UCITS, money market instruments, securities with embedded derivatives and derivative instruments (such as listed futures, listed options, forwards and swaps linked notably to equities, bonds, currencies, commodities indices, and interest rates).
- **Dividend policy:** all the Fund's amounts available for distribution (if any) shall not be distributed to Shareholders, but reinvested.
- **Net Asset Value:** The Net Asset Value per share is calculated on each Valuation Day that is (i) any full working day in Luxembourg, New York and Paris when banks are opened for business and (ii) exchanges are open for trading in the US, European Union and the UK during their respective regular trading sessions or otherwise determined by the Board of Directors.
- **Redemptions:** Requests for redemption of Shares must be given by indicating the number of Shares and shall be centralised by the Registrar Agent before 12:00 (Luxembourg time), on each Valuation Day and processed at the net asset value calculated as of such Valuation Day. Requests for redemptions forwarded after 12:00 (Luxembourg time) on a Valuation Day shall be deemed to have been received before 12:00 (Luxembourg time) on the following Valuation Day.

Risk and reward profile

The risk-return category shown above is based on the maximum level of risk that the Fund manager may take while adhering to the Fund's strategy, as well as on its performance, where applicable. This risk estimate may therefore not represent a reliable indicator of future risk, and may be subject to change over time. The lowest category does not mean risk free investment.

The Fund has been classified within category 4. Category 4 indicates that under normal market conditions a moderate loss of capital is possible ; the value of your investment may have moderate and low daily upside or downside variation.

Main risks not covered by the above indicator which could lead to a decrease in the net asset value of the Fund and which the Fund is authorized to disclose in this document (for more details about risks, please refer to the Risk Profile section of the prospectus):

- **Counterparty risk:** The Fund is exposed to the risk that any counterparty with which it has concluded an agreement or a transaction could become insolvent or otherwise default and more particularly when it has concluded financial derivative instruments over-the-counter or securities lending transactions. If such an event occurs, the net asset value of the Fund may decrease significantly. According to the regulation applicable to the Fund, such risk cannot exceed 10% of the Fund's total assets per counterparty.
- **Risk of Financial derivative Instruments:** The Fund invests in financial derivative instruments. These financial derivative instruments can induce different types of risks such as (but not limited to) leverage risk, high volatility risk, valuation risk or liquidity risk. If this risk occurs, the net asset value of the Fund may decrease significantly.
- **Operational risk:** In the event of an operational failure of the management company or one of its representatives, investors could experience loss, delay in processing subscriptions, conversions, redemptions orders or other type of disruptions.
- **Credit risk:** The Fund is subject to the risk that any issuer could become insolvent or to otherwise event having an impact on the credit quality of this issuer. The consequence of this risk or event may result in a decrease of the net asset value of the Fund.
